

All-glass revolving doors Besam RD-300 series

ASSA ABLOY

ASSA ABLOY Entrance Systems

The global leader in
door opening solutions

A masterpiece in entrance automation

Uncompromizing beauty, superior safety and optimum energy savings with the all-glass three and four-wing revolving doors.

Our entrance automation advisors support you throughout your building project.

The ideal solution for your shop, hotel or office space.

ASSA ABLOY Entrance Systems beautiful, all-glass three or four-wing revolving doors with their unique LED lights ceilings are the crown jewel of our energy-saving entrance portfolio and a high-tech masterpiece for any building.

- Concealed drive unit
- Touchscreen mode selector
- LED lights in the glass ceiling to promote your logo or message of choice
- Night Closing Doors
- Remote online operation
- Safe rotating section
- Concealed sensor for optimum aesthetics
- Environmental product declaration
- Optional air curtain for superior comfort

Sustainability made crystal clear

With the Besam all-glass revolving door, your indoor climate will be safeguarded against unwanted air infiltration, enabling you to take control of your energy consumption without detracting from a welcoming, luxurious entrance.

Solutions for all facilities and needs

Whatever your building design aspirations or maintenance preferences, we can advise on finding the best solution for your business.

Besam all-glass revolving doors can be used for both internal and external installations, as single installations or for multiple main entrances. Complete your revolving door entrance solution with the in-ground Besam SW200i swing door operator which remains unaffected by harsh weather conditions for optimal convenience for the disabled and elderly. We also offer attractive air curtains that complement the luxurious feel of the all-glass revolver while adding extra comfort.

Adding a touch of class

Operating modes to user statistics at your fingertips.

Access your all-glass revolving door via a secure Internet connection.

Promote your brand using the integrated LED lights in conjunction with luxurious lighting and tailored solutions.

"Luxurious lighting and tailored solutions using integrated LED lights to promote your brand."

Cutting-edge features

The advanced touchscreen mode selector performs as good as its looks. This sleek mode selector provides a user-friendly, graphical overview of your door's configuration and is not only the perfect partner for the control system, but also an attractive complement to your revolving door.

With the touchscreen mode selector, one can access usage statistics, check the door's service status and even perform a range of diagnostic functions.

The beauty within

The control system is the next-generation drive unit for Besam revolving doors, and it's nothing less than state-of-the-art. Together with the full range of monitored sensors that are standard in our doors, it provides smooth operation that is fully optimized for efficiency and personal safety.

E-functionality

Revolving doors have always been convenient for building visitors. Now, with the introduction of e-functionality, they can be just as convenient for those in charge of overseeing them.

Thanks to cutting-edge technology in the control system, you can configure and operate your door via the web-independent of your location.

Beautiful aesthetics

- An all-glass revolving door with LED lights in the ceiling for an impressive and luxurious entrance.

Sustainability

- Safe-guards your indoor climate against unwanted air infiltration and drafts.

Cutting-edge

- Improved performance and operation with the next-generation drive unit and touchscreen mode selector.
